

Greetings!

Its' hard to believe that the year is half over! We are sure feeling the heat here in Florida! For self preservation purposes, I've decided to increase the frequency of my trips to the North until the heat breaks. I will be returning to Wisconsin, Ohio and the Chicago Area over the next couple of months and look forward to seeing many of my Northern students again as well as working with some new shooters.

Take a look at the calendar on the [home page](#) of our website for locations near you.

For this months' shooting tip, I'm shifting gears a bit. In my "Ask the Instructor" column, I couldn't help but notice some very high "click rates" on my answers to shooter's questions about shooting glasses and the ideal lenses. In response, I pulled together a summary of my thoughts on shooting glasses. In case you are thinking about purchasing a set, see the selection in our [on-line store](#)! Read on and enjoy!

NEWS ITEMS !

> **Stay tuned for Don's new book! He needs a title!**

Don is finishing up his new book! It will cover his now familiar FOCUS MOVEMENT FAITH principles from the DVD as well as reveal an assortment of target tactics to crush particularly nasty presentations. He will also unravel a wide range of other topics like eye dominance, gun fit, the mental game and practice regimens. [Suggest a title!](#)

> **Teaching locations for July - September include:**

-Wisconsin (Game Unlimited in Hudson)

This Month's Shooting Tip:

"Selecting Shooting Glasses"

Is more expensive really better?

If you can't see the target, you can't hit the target. The clarity of a lens can be measured. Any idea which brand of shooting glasses has the highest clarity? Ever wonder what color you should use for which conditions? What lens would you throw in your bag if you could only pack one?
